

PRELIMINARY PROGRAM

International Journey

WORKING FROM CLINIC

METAPHOR AND INTERETATION

Montevideo, 20 and 21 October 2017

Hotel NH Columbia

The clinical material is an important way to approach the knowledge of the experience of human suffering, from a psychoanalytic perspective.

In recent times, the development of clinical discussion groups with different perspectives or methodology has allowed important advances in this field.

In this journeys we will have the opportunity to meet and work with several of these new perspectives.
